

July 2024

Extending the Footpath at Lower Dandenong Road, Mentone

Every year we invest significantly in Kingston's roads, footpath, and drainage network to support the current and future needs of our community – and are focused upon creating a cycling and pedestrian-friendly Kingston.

We plan to reconstruct a footpath on the northern side of Lower Dandenong Road, from Duigan Drive to Warren Road, Mentone, to improve safety and access for our community.

The improvements will include:

- Reconstruction of the footpath between Duigan Drive and Warren Road along the north side of Lower Dandenong Road.
- Reconstruction of the pram crossing at the T–intersection of Warren Road and Lower Dandenong Road.
- Reconstructing the vehicle crossings in front of 217 and 219 Lower Dandenong Road to match in with the new footpath.
- A section of footpath in front of 217 Lower Dandenong Road will comprise a sustainable permeable pavement treatment. This product will help to protect tree roots of the nearby trees, so they remain healthy.

Significant trees will be retained, and tree protection measures will be in place during the works. For more details, please refer to the plans, on the following page.

Construction Details

Works are expected to commence by early 2025 and will take around 4 weeks to complete.

More specific information regarding timing of the works will be available when a contractor is appointed by Council.

The construction works will restrict access to some pedestrian areas for short periods of time. We will aim to minimise disruption and will provide adequate signage for alternative pathways. Closer to the time of construction additional information will be provided, with details on who to contact during construction.

We look forward to delivering these improvements for the community.
