

## **CITY of KINGSTON – ROAD AND KERB AND CHANNEL CONDITION SURVEY**

City of Kingston has engaged Talis Consultants to survey the sealed and unsealed road network within Council owned road reserves. The intention of this survey is to assess the condition of road and kerb and channel assets to develop road renewal and maintenance programs.

As part of the condition survey Field Officers of Talis Consultants are required to operate an inspection vehicle. The vehicle is mounted with high definition cameras and laser profilometer equipment. The cameras are trained at the road pavement with the intention of capturing visual observation of road defects.

If you have any queries or require further information, please do not hesitate to contact the City of Kingston Project Manager. Contact details are provided below:

<b>Name</b>	<b>Ehteshamul Kabir</b>
<b>Email</b>	<b>Ehteshamul.kabir@kingston.vic.gov.au</b>
<b>Phone</b>	<b>03 9581 4349 Mobile 0409958677</b>

**The survey started from 16 December 2024 and estimated duration of the work is eight weeks.**
