1. Executive Summary

The current environment associated with the Coronavirus State of Emergency are without precedent. Council recognises this and acknowledges that:

- every member of our community, including recipients of our services, has been and will continue to be impacted;
- every business in the municipality has been and will continue to be impacted; and
- Council's usual operations and staff have been and will continue to be impacted.

This impact will continue until after the State of Emergency is over.

This report presents a range of responses for Council approval and specifically recommends initial relief options for Council to support our community and our local businesses – noting that this report is likely to be the first of many on this issue.

2. Background

Having initiated its Business Continuity Plan, Council's Business Continuity Team has been meeting at least daily for the last 2 weeks and less frequently before that dating back to late February / early March. Councillors have been provided with several briefings and frequent updates from the Chief Executive Officer to enable them to remain across the responses being put in place to support the Kingston community and reduce the spread of COVID-19. This has resulted in:

- The closure of Council services such as: Libraries, Waves Leisure Centres; and our Arts facilities;
- The closure of Council operated Community Centres and Neighbourhood Houses;
- A range of service delivery changes including Maternal and Child Health, Immunisation and meals on wheels services;

Agenda

- A reduction of the number of patrons in some services including Long Day Care and Kindergarten services; and
- Staff working in flexible ways to continue to deliver service to our community.

The Municipal Emergency Response has also been activated in response to the State Relief Plan being activated and to support the State's emergency response directives.

Since the activation of our Business Continuity Team, Officers have continued to apply the principles articulated by Councillors of:

- providing leadership to and within the community in assisting to minimise the impact of the Coronavirus in the community; and
- prioritising the health, safety and well-being of our residents, business community and service recipients.

Budget impact – approximately - **\$42,000 per month (\$126,000 for 3 months; \$252,000 if 6 months)**

It is the officers view that the APT tenancy requires special consideration for the following reasons:

- The tenant has already experienced a significant downturn since January 2020;
- Will need more time to recover as the economy recovers – note link to travel / tourism industry and the multiplier effect this has on the economy;
- Has been a model tenant of Council for approximately 10 years;

City of Kingston

Agenda

- Tenancy has enabled accelerated Council's loan repayments for 1230 Nepean Highway with significant interest savings benefitting Council;
- the current lease option has 4 years to run and an option for another 7-year option.;
- they are a significant local region employer with 350 staff based in Cheltenham, the majority of which live in Kingston or surrounding council areas;
- the spend in the Cheltenham Business area by those staff would conservatively be in the order of \$300,000 to \$400,000 in "Charman Rd" each year; and
- officers' assessment that it might take 2 years to lease back up to the current level of occupancy.

Officer Recommendation: waiver of rent (9 months) from 1 April to 31 December 2020.

Budget Impact – **Approximately \$846,000.**

The recommendations also includes several advocacy actions that have been discussed with Councillors.
